

This book is both a guide to the techniques of aerial photography, and a showcase of work by the author, who is one of the worlds top aerial photographers. It covers the various aspects of this specialised genre and will be written in an accessible, conversational tone, with plenty of tips, anecdotes and personal viewpoints, which will serve to underline the authority of the author. The images will encompass a variety of subjects, taken in various countries around the world.

Linear Programming: Computational Approach, 30 Minutes . . . To Make the Right Decision (Arabic Edition), Glossary of military abbreviations, The Digital Detox.
