

Dr. Merlin Tuttle and his colleagues at Bat Conservation International aren't scared of bats. These bat crusaders are fascinated by them, with good reason. Bats fly the night skies in nearly every part of the world, but they are the least studied of all mammals. As the major predator of night-flying insects, bats eat many pests. Unfortunately bats are facing many problems, including a terrifying new disease. White-nose Syndrome is infecting and killing millions of hibernating bats in North America. But Dr. Tuttle, with the help of his fellow bat scientists are in the trenches and caves on the front line of the fight to save their beloved bats.

Hoshi Sudoku - Extreme - Volume 5 - 276 Puzzles by Nick Snels (2014-11-22), Tropical Rainforests (Close Up), Jumbo Rabbit, The Last Bully (Hugo the Happy Starfish - Educational Childrens Book Collection 2), Exercise and Intracellular Regulation of Cardiac and Skeletal Muscle (HK Sport Science Monograph),

The ick factor is high in this latest title in the Scientists in the Field series describing patient field work, rescue and conservation efforts to save. The Bat Scientists has ratings and 45 reviews. Krista the Krazy Kataloguer said: Another excellent entry in the Scientists in the Field series. Carso. activities, and classroom resources for the Scientists in the Field book series. Dr. Merlin Tuttle and his colleagues at Bat Conservation International aren't.
