Georgina Powers is not happy when Charlie East turns up for their wild weekend in LA on the plane home. He had a good excuseâ€"a million dollars in computer chips won at an all-night poker game. Still, Georgina plans revenge and sells Charlies story to the tabloids. Thats when the trouble starts. You dont mess with the Japanese mafia, the Colombian drugs cartels, or a gun-happy international computer dealer. But they mess with her because they think she has the chipsâ€"and they want them back. Should she stay or run? Either way, will she live to write the scoop of the century?
