

Excerpt from Womans Rights and Duties, Vol. 1 of 2: Considered With Relation to Their Influence on Society and on Her Own Condition  
In moral inquiries of a practical nature life the present, anything pretending to novelty would be in great danger of becoming paradoxical. But if truths that are generally admitted are also very often neglected, it shows, either that their importance has not been adequately felt, or that the manner of applying them to practice has not been made sufficiently evident to common understandings. When circumstances are such as to exhibit the consequences of some error very strongly, truths that had been habitually disregarded, acquire force and activity. This occurred in America with respect to intemperance, and a rapid and remarkable change is said to have taken place. We find, therefore, that people can sometimes be led, by regard for the interests of society, to practise self-control; and it is not too much to expect also in other cases, that if the mischiefs which flow from certain false principles can be made equally evident, the languid assent yielded to a general maxim may be converted to practical conviction.  
About the Publisher  
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)  
This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
